# Navy SeaPort-Next Generation (SeaPort-NxG) IDIQ

**Scope:** Task orders issued under this contract by the Naval Sea Systems Command (NAVSEA), Space and Naval Warfare Systems Command (SPAWAR), Naval Supply Systems Command (NAVSUP), Military Sealift Command (MSC), Naval Facilities Command (NAVFAC), Office of Naval Research (ONR), or the United States Marine Corps, will include services that potentially span the entire spectrum of mission areas and technical capabilities supported by the Department of the Navy (DON) ordering activities. Services within the 2 Categories (with 23 functional area subcategories), identified below, may be performed under this contract for new and existing product areas, programs, or missions, which are assigned to these activities during the life of the contract. Services provided under this contract are categorized into the following categories:

**Engineering Services:** Functional areas that are included under the Engineering Services category include but, are not limited to the following examples:

- » Engineering, System Engineering, and Safety and Process Engineering Support
- » Software Engineering, Development, Programming, and Network Support
- » In-Service Engineering, Fleet Introduction, Installation and Checkout and Provisioning Support
- » Measurement Facilities, Range, and Instrumentation Support
- » Interoperability, Test and Evaluation, Trials Support
- » Research and Development Support
- » Modeling, Simulation, Stimulation, and Analysis Support
- » Prototyping, Pre-Production, Model-Making, and Fabrication Support
- » System Design Documentation and Technical Data Support
- » Reliability, Maintainability, and Availability (RM&A) Support
- » Inactivation and Disposal Support
- » Biochemical Engineering Support

**Program Management Services:** Functional areas that are included under the Program Management Services category include but, are not limited to the following examples:

- » Financial Analysis and Budget Support
- » Quality Assurance (QA) Support
- » Functional and Direct Programmatic Administrative Support
- » Professional Development and Training Support
- » Analytical and Organizational Assessment Support
- » Database Administrators
- » Public Affairs and Multimedia Support
- » Logistics Support
- » Configuration Management (CM) Support
- » Information System (IS) Development, Information Assurance (IA), and Information Technology (IT) Support
- » Computer Systems Analysts

**SeaPort-NxG does not allow for the direct procurement of supplies or hardware. Any material or products ordered shall be incidental and in direct support of performed services (for example, small scale testing equipment, prototypes, or spares).**

**Period of Performance:** 2 January 2019 – 1 January 2024, with one five-year option

**Contract Type:** IDIQ multiple award contract; cost reimbursable, fixed price (FP), or any combination of the two, are permitted task order types.

**Government Customer Utilization:** All warranted Contracting Officers from the NAVSEA, NAVAIR, SPAWAR, NAVSUP, MSC, Strategic Systems Programs, NAVFAC, ONR, and the U.S. Marine Corps are authorized to place orders under this IDIQ contract, using the electronic SeaPort portal.
